Advancing a Jobs-Driven Economy: Corporate Social

Responsibility Takes a Different Form - Sodexo Insights In the 21st century jobs-driven economy, companies are demanding a workforce armed with STEM (science, technology, engineering and math) skills, along with effective team building, communication and problem-solving ability. Advancing a Jobs-Driven Economy was released in February, 2015 in Phoenix, AZ and Washington, DC. In the book, 62 education, business and non-profit thought leaders share proven models of partnerships that support STEM education and workforce

development.

USAJOBS is the Federal Government's official one-stop source for Federal jobs and employment information.

Advancing A Jobs Driven Economy

Advancing a Jobs-Driven Economy: Higher Education and Business Partnerships Lead the Way compiles expert opinions from postsecondary and corporate leaders about how education and business can better collaborate to address the talent gap in the STEM workforce. The publication focuses on connecting education and business to better prepare

students for the current and future job market, and showcases effective partnerships and case studies.

Advancing a Jobs-Driven Economy - STEMconnector

“ Advancing a Jobs-Driven Economy highlights the importance of cross-sector collaboration and crossing boundaries. We need the collaboration. And the stronger the collaboration, the stronger our society and economy will be. ”
