Manorial surveys were very common throughout the Middle Ages, in particular in France and England, but faded as serfdom gave way to a money economy. Fiscal surveys came with the rise of the money economy, the most famous and earliest being the Domesday Book in 1086. The Book of Hearths from Italy in 1244 is another example.

Medieval demography - Wikipedia

France in the Middle Ages was the most populated region in Europe (and the third most populous country in the world, behind only China and India), although there were great differences in density between the populated north and the relatively unpopulated south. In the 14th century, before the arrival of the Black Death, the total population of the area covered by modern day France has been estimated at around 17 million.

France in the Middle Ages

The Middle Ages were not a good time to be a child under seven. Based just on written records, scholars have found that 20% to 30% of young children died, and the actual number is likely higher. The majority of victims of the plague were children, and little kids also had to contend with whooping cough, influenza, tuberculosis, measles ...

Facts About The Middle Ages In Europe And Around The World

The Middle Ages famously features great examples of extreme religiosity: mystics, saints, the flagellants, mass pilgrimage, and the like. But it would be wrong to assume that people were always very focused on God and religion, and definitely wrong to think that medieval people were incapable of sceptical reflection.

Life in the Middle Ages: 10 Surprising Facts - HistoryExtra

By the middle of the 15th century, the English had been expelled from nearly all of France. They only held on to Calais - until 1558. The theme of this brief historical synopsis is this: For nearly four centuries, the English monarchy and nobility, which paradoxically were of French origin, fought wars in France in their ceaseless efforts to hang on to their huge "Angevin Empire" on the Continent.
