

Kurose Ross

Computer Networking

5th Solutions

~~Computer Networking: a Top
Down Approach~~

In the field of communication, Computer Networking has much of attention. It has become an essential omnipresent technology with explosive growth. There are ample of books accessible for the study and design of computer networks. This paper addresses

Keith Ross is a professor of computer science at

Polytechnic University. He has worked in peer-to-peer networking, Internet measurement, video streaming, Web caching, multi-service loss networks, content distribution networks, voice over IP, optimization, queuing theory, optimal control of queues, and Markov decision processes.
