

The Law Of Air Road And Sea Transportation Transportation Issues Policies And Randd

Texas lawmakers have enacted traffic laws designed to ensure the safety of the driving public. Seat belts, for example, save thousands of lives a year. Speed limits are designed to get drivers who want to go safely and without undue delay. Texting and cell phone conversations are dangerous distractions from the road.

According to the law, if you are cycling (or driving) in the middle of a road and the vehicle behind you indicates that it wishes to overtake you should quickly and safely give way. For a small fee you can lock your bicycle at assigned places where it will be looked after by attendants.
